

Galleri Bo Bjerggaard

CHART DE-CENTRED //2020

For this year's exceptional edition, CHART Copenhagen transforms into CHART Copenhagen, Helsinki, Oslo, Reykjavik, and Stockholm in a radical re-thinking of the art event.

"Adapting to a new reality is not only necessary, it is the only responsible thing to do. Due to government restrictions we are unable to gather a vast audience at our usual fantastic venue Kunsthal Charlottenborg in central Copenhagen. Meanwhile we are painfully aware of the difficult situation the art scene finds itself in. That's why we've developed a new way to build on our strong network of participating galleries, artists, loyal collectors, museums, and institutions." – Nanna Hjortenbergt, Director of CHART.

For their CHART presentations, the 28 participating Nordic galleries will show 100% women artists, a first for the international art fair community. With this strong collective statement, the ambition is to highlight one of the biggest structural barriers in the art scene and art market; gender imbalance.
